DETAILED ACTION

Election/Restrictions

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicants are required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-10, drawn to a substrate cleaning method.

Group II, claim(s) 11-20, drawn to a substrate cleaning apparatus.

Group III, claim(s) 21, 22, 28 and 29, drawn to a computer readable recording medium.

Group IV, claim(s) 23, 24, 30 and 31, drawn to a computer readable recording medium.

Group V, claim(s) 25-27, 32 and 33, drawn to a computer readable recording medium.

2. The inventions listed as Groups I, II, III, IV and V do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: the technical feature shared by the groups is moving a pure water supply point from the center of a substrate to be treated to the outside and spin drying the substrate to be treated. This technical feature does not make a contribution over the prior art. See, for example, JP 2002057088 to Tokyo Electron, Ltd. and JP 2003031545 to Dannipon Screen Mfg. Co., Ltd.

3. Applicants are advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

4. Applicants are reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
